Life's a Journey.

It is a Journey of Change. It is a Journey of Transition.

It is a Journey from where we are to where we can be. It is a Journey of Choice.

The *Journey of Life & Work* involves *Three Areas* that must we develop. We need to *Communicate* clearly our *Purpose*, *Values* and *Vision for Making a Difference that Matters*.

We need to build *Collaborative Relationships* of *Trust* and *Caring*. We need to *Coordinate* all aspects of our *Life & Work* so that we have the best possible opportunity to create the *Impact* that we desire.

For the Journey We Need ...

A Plan that Maps the Course of Our Journey
Skills and Tools to Manage Opportunities and Challenges
Friends and Colleagues with whom to share the Journey.
A Guide who helps you all along your Journey's path.

Your Investment and Commitment Matters

The time and money that you spend with me is an investment in your future. If you want your journey to lead you to greater opportunities and achievement, then your investment and commitment to our work together is essential. My hope is to journey with you for a long time, so share in your celebrations and to be there when times are hard. That's what guides do, and that is who I am.

Our First Steps Together

We start with a 30 minute introduction meeting that is at no cost to you. If we both decide to work together, we then schedule a 90 minute meeting where we establish goals, expectations, set a regular meeting time and estimate the costs. We design a project that fits your needs and financial resources. Our initial meeting costs \$225.00. My meeting fee is \$150 per hour. You pay me when we meet. I do not charge for phone calls and emails between our meetings unless prior to the phone call we agree that this is one of our planning sessions. I look forward to having the opportunity to work with you on the journey of life and work so that we both may together make a difference that truly matters.

"Helping people along life's journey to make a difference that matters"
